# FAQ - GRE / GMAT / SAT

- **Which MBA programs accept GRE scores?**

Many Business schools worldwide accept GRE scores for their MBA, specialized master's and other doctoral business programs, including many top-ranked programs.

- **How does the GRE & GMAT computer adaptive test work?**

The Verbal Reasoning and Quantitative Reasoning sections are section-level adaptive, meaning that the first section of the Verbal Reasoning and Quantitative Reasoning measures spans a range of difficulty levels, from easy to difficult. For example, if for the Quantitative Reasoning measure you do very well on the first section, the second section of the Quantitative Reasoning measure will be at a higher level of difficulty. The scoring for the Quantitative Reasoning measure takes into consideration the total number of questions answered correctly across the two sections, as well as the difficulty level of the section (similar process for the Verbal Reasoning measure) GMAT Focus edition is a question adaptive.

I had attended the GRE and IELTS classes at Edwise. The classes were helpful in focusing my concentration on the exam. The teachers of both quants and verbal gave minute points on how to go about solving different types of questions. Studying new words in verbal helped in increasing my vocabulary and the different shortcuts in maths reduced the working time on a problem. Another important thing that I learnt is the management of time and completing the exam within the given time. The Barrons online test and the mock tests also helped in this. Overall I felt the classes were very active and helpful.
